Immune Hot

ERC-funded positions

Tsoumakidou lab

BSRC Fleming | University of Athens

We are seeking a **motivated immunologist** to join a highly interactive research team that operates across immunology, molecular biology and animal modeling. The ideal candidate should possess **at least a MSc degree in immunology** and shall work towards decoding the phenotypic and functional heterogeneity of **cancer antigen presenting dendritic cells and stromal cells**. Experience in animal models of cancer, gene editing and/or bioinformatics analysis would be highly valued. Maria Tsoumakidou, group leader at BSRC Fleming and associate professor of Physiology at the Medical School of the University of Athens, received 2 million euro to implement her project artFibro, titled **“Artifying fibroblasts: Perturbation modelling in the lung tumor phase space to rewire fibroblasts for immunotherapy” (2023-2028)**.

Expressions of interest should be sent electronically to **Dr. Tsoumakidou** (tsoumakidou@fleming.gr) and should contain a cover letter outlining the candidate’s interests and areas of expertise (maximum 1 page long) and a CV including full publication list and contact information of two referees.

Deadline for expression of interest: 13/9/2024
