Biomedical Sciences Research Center

## Call for Expressions of Interest

---

# Senior Bioinformatician | BSRC Alexander Fleming Genomics and Precision Medicine Facility

---

The BSRC Alexander Fleming is seeking a motivated **bioinformatician** to lead the bioinformatics activities of its **Genomics and Precision Medicine Facility**. The Unit develops, maintains and supports robust bioinformatics workflows for the unit's offerings, which are centered on high-throughput, genome-wide research and diagnostic activities (RNA-seq, ChIP-seq, whole exome-seq, gene panel sequencing, targeted sequencing, shotgun metagenomics, etc., <https://www.fleming.gr/genomics-next-gen-sequencing>). We seek candidates with significant experience in the application and development of the above computational technologies coupled with passion for robust, repeatable and well-documented research.

Candidates must hold a PhD in Biological Sciences, Computer Science, Applied Mathematics/Statistics or related fields. Alternatively, an MSc with at least 3 years of experience in bioinformatics is acceptable. Applicants should have a proven track record in computational analysis of big biological data and hands-on experience in analyzing data from NGS technologies. Expertise in planning, executing and maintaining related bioinformatics workflows is essential. Experience in participating similar activities at comparable facilities will be considered an asset.

Expressions of interest should be sent electronically to: [genomics@fleming.gr](mailto:genomics@fleming.gr)

Candidates should email a cover letter outlining their interests and areas of expertise (maximum 1 page long), along with a detailed curriculum vitae that includes contact information for at least two referees.

Deadline for expression of interest: **26/07/2024**
