Immune Hot

ERC and Horizon funded positions

Tsoumakidou lab | BSRC Fleming

We are seeking **two motivated bioscientist** to join a highly interactive research team that operates across immunology, molecular biology, systems biology and animal modeling. The ideal candidates should possess a MSc degree in immunology or biological sciences. Experience in animal models, tissue culture and/or imaging would be highly valued. Maria Tsoumakidou recently received an ERC-COG grant to implement her project artFibro, titled **“Artifying fibroblasts: Perturbation modelling in the lung tumor phase space to rewire fibroblasts for immunotherapy”** and a Horizon grant to implement her project REACT-HopOn, titled **“Delineating responses to respiratory viral infections through lung-on-chip modeling”**.

Expressions of interest should be sent electronically to **Dr. Tsoumakidou** (tsoumakidou@fleming.gr) and should contain a cover letter outlining the candidate's interests and areas of expertise (maximum 1 page long) and a CV with contact information of two referees.

Deadline for expression of interest: 15/6/2024
