

Dr. Lida Iliopoulou earned her Bachelor's Degree in Biology from the University of Athens in 2016, followed by a Master's Degree in Molecular Biomedicine from the Medical School of the University of Athens in 2018. She then joined Prof. George Kollias's lab to pursue her PhD, focusing on the role of IL-23 in intestinal inflammation, in collaboration with the University's Medical School. She completed her PhD in 2024 and is currently a Postdoctoral Researcher in Prof. Kollias's lab, studying immune and mesenchymal mechanisms involved in chronic intestinal inflammation.
